Vide ref 1st cited , the Executive Vice-Chairman, APCNF ,A.P RySS ,  
Guntur has informed that the A.P RySS is contemplating to promote 5 Layer  
(36'x 36') crop models for small & marginal farmers under APCNF program  
during this FY 2020-21 and requested to redesign the existing Horticulture  
program within the permissible frame work under MGNREGS

2. Accordingly vide ref 2<sup>nd</sup> cited, the redesigned work permitting 5 types  
of fruit tree species instead of single fruit species exclusively for Small  
& Marginal farmers in the villages selected under APCNF program was  
communicated to EVC, APRySS, APCNF, Guntur.
3. Vide ref 3<sup>rd</sup> cited, certain modifications were suggested by EVC,  
APRySS, APCNF, Guntur in the Horticulture Multi Cropping model  
and additional works were also requested to be considered in the  
same plot of land to promote the 5 layer model of Natural farming in  
view of its profitability & sustainability.
4. In this regard, after inclusion of modifications suggested by EVC,  
APRySS, APCNF, Guntur, the template for “Horticulture Multi  
Cropping in APCNF villages” under MGNREGS work is redesigned as  
follows.
